

CARD LEGALITY FOR JOUST FORMAT

V 2.2 (8th of March 2021)

This document contains a reference of information necessary to build legal decks for organized play events. It is divided in three parts:

PODs or card interactions: They will serve to break up overpowered interactions, but none of the cards is restricted. They just can't be played together. POD's will be more or less permanent. Changes will be rare.

Restricted list: Normal list to restrict very commonly played cards. You can choose only 1 card from the list and play it in any number of possible copies. Since we no longer have the same steady release of new cards, the Restricted List will be used to create a fresh meta and interesting deckbuilding choices. The RL will change frequently, and cards will be moved on and off. Since the overpowered cards are redesigned, cards are no longer doomed to stay on the RL forever. Most of them will leave the list again rather sooner than later.

Banned cards: Cards that are not legal for competitive play.

This list will be updated as is deemed necessary, and new entries and changes from previous editions will be noted in **red text**.

BANNED PODS (CARD INTERACTIONS):

These combinations of cards are prohibited and cannot be included in the decks. However, the individual cards can be used without problems.
